Re: Supplemental Notice of Claim Pursuant to Oklahoma's Governmental Tort Claims Act and Notice of Claim pursuant to Solid Waste Disposal Act

Dear Madam:

On April 29, 2005, Cargill Turkey Production, LLC served you with a Notice of Claim pursuant to Oklahoma's Governmental Tort Claims Act and Notice of Claim pursuant to the Solid Waste Disposal Act. A copy of said Notice is attached hereto. At the time the Notice was served, the Attorney General for the State of Oklahoma had not yet filed a lawsuit. Cargill Turkey Production, LLC ("CTP") provides this supplemental notice to advise you of the Attorney General's litigation and the claims made therein. Cargill, Inc. ("Cargill") is also providing you notice of its Notice of Claim Pursuant to OKLA. STAT. tit. 51 § 156 and 42 U.S.C. § 6972(a)(1)(B).

On June 13, 2005, the Attorney General for the State of Oklahoma filed a lawsuit in the Northern District of Oklahoma against CTP, Cargill and other companies. On August 19, 2005, the Attorney General filed his First Amended Complaint. A copy of the First Amended Complaint is attached hereto. In its Amended Complaint, the State of Oklahoma has asserted claims under the Comprehensive Environmental Response Compensation and Liability Act ("CERCLA"), 42 U.S.C. § 9601 *et seq.*, the Solid Waste Disposal Act ("SWDA"), 42 U.S.C. § 6972, state and federal statutes, and state and federal common law. Because the Attorney General served this lawsuit on CTP, Cargill and other companies, the same law requires that CTP and Cargill provide a 90-day notice to any other entity, party or company that they claim should be a part of any lawsuit filed by the Attorney General.

In his Amended Complaint, the Attorney General alleges that Illinois River Watershed has been damaged by poultry litter and its constituents, including the nutrients contained within poultry litter such as phosphorous and phosphorous compounds, and nitrogen and nitrogen compounds.

September 26, 2005  
Page 2

The Attorney General is claiming that poultry litter is a federally regulated solid and/or hazardous waste, and that its use in this Watershed is creating an "imminent and substantial endangerment to human health and the environment." The heart of the Attorney General's claim is that when poultry litter is applied to the land within the Watershed as a fertilizer, excess phosphorous and other components of the litter run-off the land and enter into the waters of the State of Oklahoma causing environmental harm.

CTP, Cargill, and the other companies deny that poultry litter or nutrients, such as phosphorus, are solid or hazardous wastes, that any damage has occurred, or that they or their contract poultry growers have violated any law. However, since the Attorney General claims that the release of the constituents of poultry litter including nutrients into the Illinois River Watershed are the source of alleged damages, other sources such as municipal waste systems, recreational facilities and their waste handling facilities, and golf courses, may be potentially liable under the same theories under state and federal law. You are receiving this notice pursuant to 42 U.S.C. § 6972(a)(1)(B) and OKLA. STAT. tit. 51 § 156, because your activities may be contributing nutrients and other substances to the waters in the Illinois River Watershed, by virtue of your operations of the aforementioned types, and the Attorney General has claimed that such nutrients and substances are causing an "imminent and substantial endangerment to human health and the environment."

CTP, Cargill, and the other companies deny the State's allegations, including that damage has occurred and deny that they are responsible for any such damage. However, because the State of Oklahoma instituted this litigation, CTP and Cargill intend to bring Third-Party Complaints against you, other point source contributors, and other non-point source contributors seeking relief in the form of an injunction requiring the third-parties to participate with CTP, Cargill and the other companies in each and every aspect of relief the Attorney General intends to achieve to the extent permissible under Oklahoma's Governmental Tort Claims Act. CTP and Cargill will also seek all other equitable and legal remedies available.

The State of Oklahoma is seeking the following in its First Amended Complaint:

- I. All past monetary damages suffered by and all costs and expenses incurred by the State of Oklahoma in the Illinois River Watershed;
- II. All future monetary damages suffered by and all costs and expense incurred by the State of Oklahoma as result of and in connection with the continuing effects of the wrongful conduct in the Illinois River Watershed;
- III. A permanent injunction requiring the immediate abatement of pollution-causing conduct in the Illinois River Watershed, to remediate the Watershed, including the lands, waters and sediments therein, and to take all such actions as may be necessary to abate the imminent and substantial endangerment to the health and the environment;
- IV. All costs associated with assessing and quantifying the amount of remediation and natural resource damages as well as the amount of the natural resource damages itself;

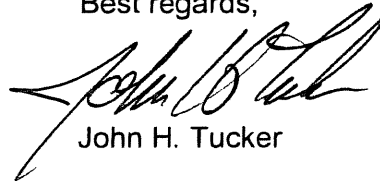

September 26, 2005

Page 3

- V. Restitution in an amount sufficient to make the State of Oklahoma whole for loss and damages it has suffered by release of these alleged constituents into the Illinois River Watershed;
- VI. Disgorgement of all gains realized in consequence of the release of these alleged constituents into the Illinois River Watershed;
- VII. Statutory penalties; and
- VIII. Reimburse the State for its attorney's fees and costs.

CTP and Cargill shall seek the same relief from Third-Party Point Source Contributors and Non-Point Source Contributors including the City of Tahlequah to the extent permitted by law. It is CTP and Cargill's position that any comprehensive and effective resolution to reduce the level of these constituents in the Illinois River Watershed must involve all stakeholders and potential contributors.

Best regards,

John H. Tucker

**Re: Notice of Claim Pursuant to Oklahoma's Governmental Tort Claims Act  
and Notice of Claim pursuant to Solid Waste Disposal Act**

Dear Madam:

Pursuant to OKLA. STAT. tit. 51 § 156 and 42 U.S.C. § 6972(a)(1)(B), the following parties are providing you with their ninety-day notice of claim: Peterson Farms, Inc.; Tyson Foods, Inc.; Simmons Foods, Inc.; George's, Inc.; Willow Brook Foods, Inc. and Cargill Turkey Production, LLC (the "Companies").

The Companies have received notice from the Attorney General of the State of Oklahoma of the State's intent to File a Citizen's Suit pursuant to the Solid Waste Disposal Act, 42 USC § 6972(a)(1)(B). The State of Oklahoma has notified the Companies that the State will assert actions for additional remedies under other state and federal statutes, and under state and federal common law.

In his Notice, the Attorney General alleges that the Illinois River Watershed has been damaged by the nutrients found in poultry litter, including phosphorus and phosphorus compounds, and nitrogen and nitrogen compounds. The Attorney General claims that poultry litter is a regulated solid and/or hazardous waste, and that its use in the Illinois River is creating an "imminent and substantial endangerment to human health and the environment."

The Companies deny that poultry litter or nutrients, such as phosphorus, are soil or hazardous wastes, or that their contract poultry growers have violated any law. However, since the Attorney General claims that the release of nutrients into the Illinois River Watershed is the source of alleged damages, other sources of nutrients potentially may be liable under the same theories. You are receiving this notice because your activities may be contributing nutrients and other substances in the Illinois River Watershed.

The Companies deny the State's allegations that damage has occurred and they deny responsibility for any such damage. The Companies believe it may be possible to avoid

Page 2  
April 29, 2005

litigation with the Attorney General. However, should the State of Oklahoma institute litigation, the Companies intend to bring Third-Party Complaints against other Point Source Contributors and other Non-Point Source Contributors. The relief sought by the Companies will include an injunction requiring the Third-Parties to engage in clean-up and remediation of any harm caused from their contributions of phosphorus and other nutrients into the Illinois River Watershed, and other Scenic River Watersheds, as well as other available equitable and legal remedies.

The State of Oklahoma has made the following demands on the Companies:

- 1) immediately cease introduction of the identified nutrients into the Illinois River Watershed;
- 2) immediately assess the damage to the waters and natural resources of the State caused by release of these nutrients into the Illinois River Watershed;
- 3) develop and implement a plan for comprehensive remediation of the waters and natural resources of the State; and
- 4) reimburse the State for past and future response costs, attorney's fees and costs.

Should the State of Oklahoma institute litigation against the Companies, the Companies will seek the same relief from Third-Party Point Source Contributors and Non-Point Source Contributors.

The Attorney General advises that he remains prepared to negotiate. The Companies encourage you to demand a place at the negotiation table. Any comprehensive and effective resolution to reduce the level of these nutrients in the Illinois River Watershed and other Scenic Watershed must involve all stakeholders and potential contributors.

Re: Supplemental Notice of Claim Pursuant to Oklahoma's Governmental Tort Claims Act and Notice of Claim pursuant to Solid Waste Disposal Act

Dear Madam:

On April 29, 2005, Cargill Turkey Production, LLC served you with a Notice of Claim pursuant to Oklahoma's Governmental Tort Claims Act and Notice of Claim pursuant to the Solid Waste Disposal Act. A copy of said Notice is attached hereto. At the time the Notice was served, the Attorney General for the State of Oklahoma had not yet filed a lawsuit. Cargill Turkey Production, LLC ("CTP") provides this supplemental notice to advise you of the Attorney General's litigation and the claims made therein. Cargill, Inc. ("Cargill") is also providing you notice of its Notice of Claim Pursuant to OKLA. STAT. tit. 51 § 156 and 42 U.S.C. § 6972(a)(1)(B).

On June 13, 2005, the Attorney General for the State of Oklahoma filed a lawsuit in the Northern District of Oklahoma against CTP, Cargill and other companies. On August 19, 2005, the Attorney General filed his First Amended Complaint. A copy of the First Amended Complaint is attached hereto. In its Amended Complaint, the State of Oklahoma has asserted claims under the Comprehensive Environmental Response Compensation and Liability Act ("CERCLA"), 42 U.S.C. § 9601 *et seq.*, the Solid Waste Disposal Act ("SWDA"), 42 U.S.C. § 6972, state and federal statutes, and state and federal common law. Because the Attorney General served this lawsuit on CTP, Cargill and other companies, the same law requires that CTP and Cargill provide a 90-day notice to any other entity, party or company that they claim should be a part of any lawsuit filed by the Attorney General.

In his Amended Complaint, the Attorney General alleges that Illinois River Watershed has been damaged by poultry litter and its constituents, including the nutrients contained within poultry litter such as phosphorous and phosphorous compounds, and nitrogen and nitrogen compounds.

September 26, 2005  
Page 2

The Attorney General is claiming that poultry litter is a federally regulated solid and/or hazardous waste, and that its use in this Watershed is creating an "imminent and substantial endangerment to human health and the environment." The heart of the Attorney General's claim is that when poultry litter is applied to the land within the Watershed as a fertilizer, excess phosphorous and other components of the litter run-off the land and enter into the waters of the State of Oklahoma causing environmental harm.

CTP, Cargill, and the other companies deny that poultry litter or nutrients, such as phosphorus, are solid or hazardous wastes, that any damage has occurred, or that they or their contract poultry growers have violated any law. However, since the Attorney General claims that the release of the constituents of poultry litter including nutrients into the Illinois River Watershed are the source of alleged damages, other sources such as municipal waste systems, and recreational facilities and their waste handling facilities, may be potentially liable under the same theories under state and federal law. You are receiving this notice pursuant to 42 U.S.C. § 6972(a)(1)(B) and OKLA. STAT. tit. 51 § 156, because your activities may be contributing nutrients and other substances to the waters in the Illinois River Watershed, by virtue of your operations of the aforementioned types, and the Attorney General has claimed that such nutrients and substances are causing an "imminent and substantial endangerment to human health and the environment."

CTP, Cargill, and the other companies deny the State's allegations, including that damage has occurred and deny that they are responsible for any such damage. However, because the State of Oklahoma instituted this litigation, CTP and Cargill intend to bring Third-Party Complaints against you, other point source contributors, and other non-point source contributors seeking relief in the form of an injunction requiring the third-parties to participate with CTP, Cargill and the other companies in each and every aspect of relief the Attorney General intends to achieve to the extent permissible under Oklahoma's Governmental Tort Claims Act. CTP and Cargill will also seek all other equitable and legal remedies available.

The State of Oklahoma is seeking the following in its First Amended Complaint:

- I. All past monetary damages suffered by and all costs and expenses incurred by the State of Oklahoma in the Illinois River Watershed;
- II. All future monetary damages suffered by and all costs and expense incurred by the State of Oklahoma as result of and in connection with the continuing effects of the wrongful conduct in the Illinois River Watershed;
- III. A permanent injunction requiring the immediate abatement of pollution-causing conduct in the Illinois River Watershed, to remediate the Watershed, including the lands, waters and sediments therein, and to take all such actions as may be necessary to abate the imminent and substantial endangerment to the health and the environment;
- IV. All costs associated with assessing and quantifying the amount of remediation and natural resource damages as well as the amount of the natural resource damages itself;

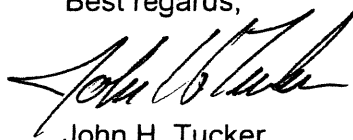

September 26, 2005

Page 3

- V. Restitution in an amount sufficient to make the State of Oklahoma whole for loss and damages it has suffered by release of these alleged constituents into the Illinois River Watershed;
- VI. Disgorgement of all gains realized in consequence of the release of these alleged constituents into the Illinois River Watershed;
- VII. Statutory penalties; and
- VIII. Reimburse the State for its attorney's fees and costs.

CTP and Cargill shall seek the same relief from Third-Party Point Source Contributors and Non-Point Source Contributors including the City of Westville to the extent permitted by law. It is the CTP and Cargill's position that any comprehensive and effective resolution to reduce the level of these constituents in the Illinois River Watershed must involve all stakeholders and potential contributors.

Best regards,

John H. Tucker

**Re: Notice of Claim Pursuant to Oklahoma's Governmental Tort Claims Act  
and Notice of Claim pursuant to Solid Waste Disposal Act**

Dear Madam:

Pursuant to OKLA. STAT. tit. 51 § 156 and 42 U.S.C. § 6972(a)(1)(B), the following parties are providing you with their ninety-day notice of claim: Peterson Farms, Inc.; Tyson Foods, Inc.; Simmons Foods, Inc.; George's, Inc.; Willow Brook Foods, Inc. and Cargill Turkey Production, LLC (the "Companies").

The Companies have received notice from the Attorney General of the State of Oklahoma of the State's intent to File a Citizen's Suit pursuant to the Solid Waste Disposal Act, 42 USC § 6972(a)(1)(B). The State of Oklahoma has notified the Companies that the State will assert actions for additional remedies under other state and federal statutes, and under state and federal common law.

In his Notice, the Attorney General alleges that the Illinois River Watershed has been damaged by the nutrients found in poultry litter, including phosphorus and phosphorus compounds, and nitrogen and nitrogen compounds. The Attorney General claims that poultry litter is a regulated solid and/or hazardous waste, and that its use in the Illinois River is creating an "imminent and substantial endangerment to human health and the environment."

The Companies deny that poultry litter or nutrients, such as phosphorus, are soil or hazardous wastes, or that their contract poultry growers have violated any law. However, since the Attorney General claims that the release of nutrients into the Illinois River Watershed is the source of alleged damages, other sources of nutrients potentially may be liable under the same theories. You are receiving this notice because your activities may be contributing nutrients and other substances in the Illinois River Watershed.

The Companies deny the State's allegations that damage has occurred and they deny responsibility for any such damage. The Companies believe it may be possible to avoid

Page 2  
April 29, 2005

litigation with the Attorney General. However, should the State of Oklahoma institute litigation, the Companies intend to bring Third-Party Complaints against other Point Source Contributors and other Non-Point Source Contributors. The relief sought by the Companies will include an injunction requiring the Third-Parties to engage in clean-up and remediation of any harm caused from their contributions of phosphorus and other nutrients into the Illinois River Watershed, and other Scenic River Watersheds, as well as other available equitable and legal remedies.

The State of Oklahoma has made the following demands on the Companies:

- 1) immediately cease introduction of the identified nutrients into the Illinois River Watershed;
- 2) immediately assess the damage to the waters and natural resources of the State caused by release of these nutrients into the Illinois River Watershed;
- 3) develop and implement a plan for comprehensive remediation of the waters and natural resources of the State; and
- 4) reimburse the State for past and future response costs, attorney's fees and costs.

Should the State of Oklahoma institute litigation against the Companies, the Companies will seek the same relief from Third-Party Point Source Contributors and Non-Point Source Contributors.

The Attorney General advises that he remains prepared to negotiate. The Companies encourage you to demand a place at the negotiation table. Any comprehensive and effective resolution to reduce the level of these nutrients in the Illinois River Watershed and other Scenic Watershed must involve all stakeholders and potential contributors.
